

AltiTouch™ 510

Delivering Value and Functionality

The AltiTouch 510 telephone is an executive level speaker-display telephone engineered to take advantage of the comprehensive AltiServ IP phone system features at an affordable price.

The standards-based AltiTouch 510 telephone is equipped with a high quality speakerphone and an ultra-large backlit display with adjustable viewing angle and six multi-function context sensitive soft keys. This sleek, easy-to-use telephone provides many cost saving and productivity features that help you handle calls faster, and more efficiently.

The AltiTouch 510 makes handling calls and voice mail easy. Instead of memorizing feature codes, you can use convenient one-touch buttons for many common functions such as transfer, headset, conference, redial, speed dial or intercom calling make this telephone both powerful and easy to use, and they work with the handset, the speaker or the amplified headset jack.

The AltiTouch 510's preset feature keys help you make and receive calls with confidence. The additional programmable one-touch feature buttons can be set up to provide custom features for individual preferences.

You can pre-dial to place calls without lifting the receiver... even backspace for digit dialing errors. With up to 99 speed dial names and numbers stored in the phone's personal directory, you get fast, easy and convenient dialing.

Maximize your return on investment. This high-quality business phone is amazingly affordable, and by choosing the AltiTouch 510 phones, you can maximize your investment and offer executive-level telephone features and capabilities to everyone in your organization.
